

Niet te vergeten

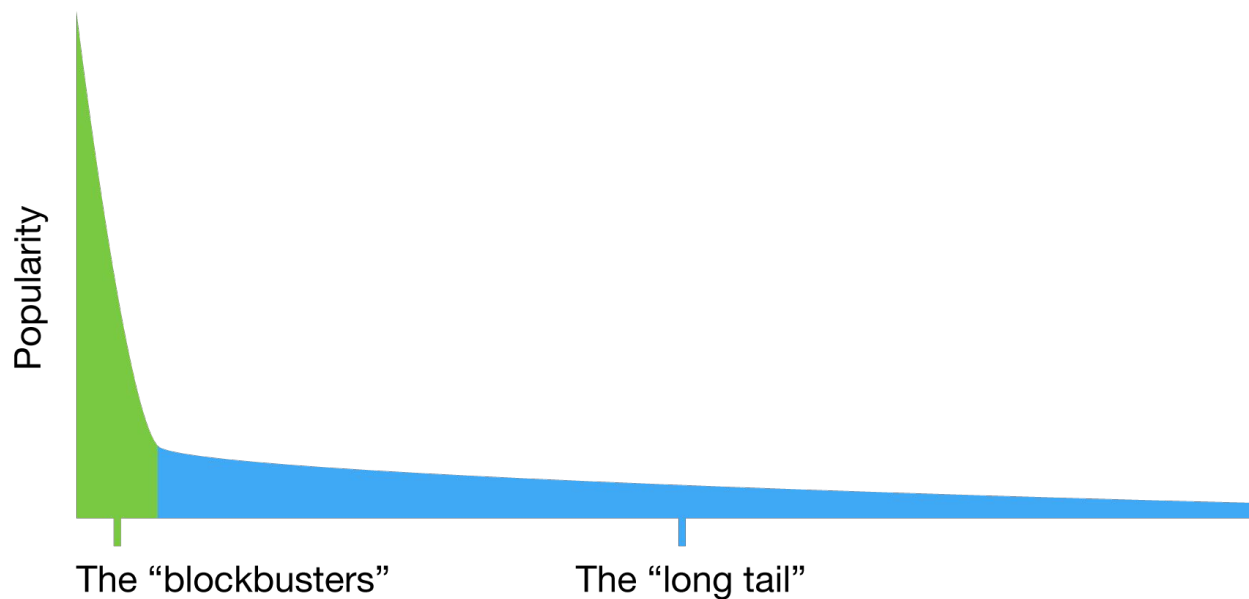

Team ExpLOD

Ben, Matus, Jorim, Philo, Edward

Cultural Collections

A challenge of representation

Representing

The “forgotten” items in the archive

Multiple partial perspectives

Shared responsibility to remember

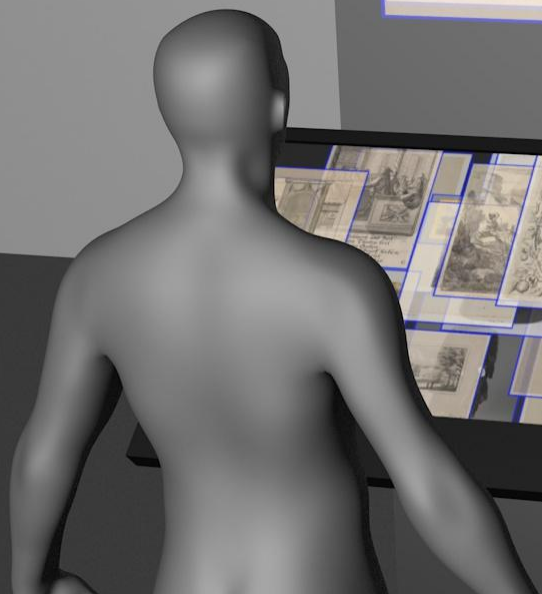

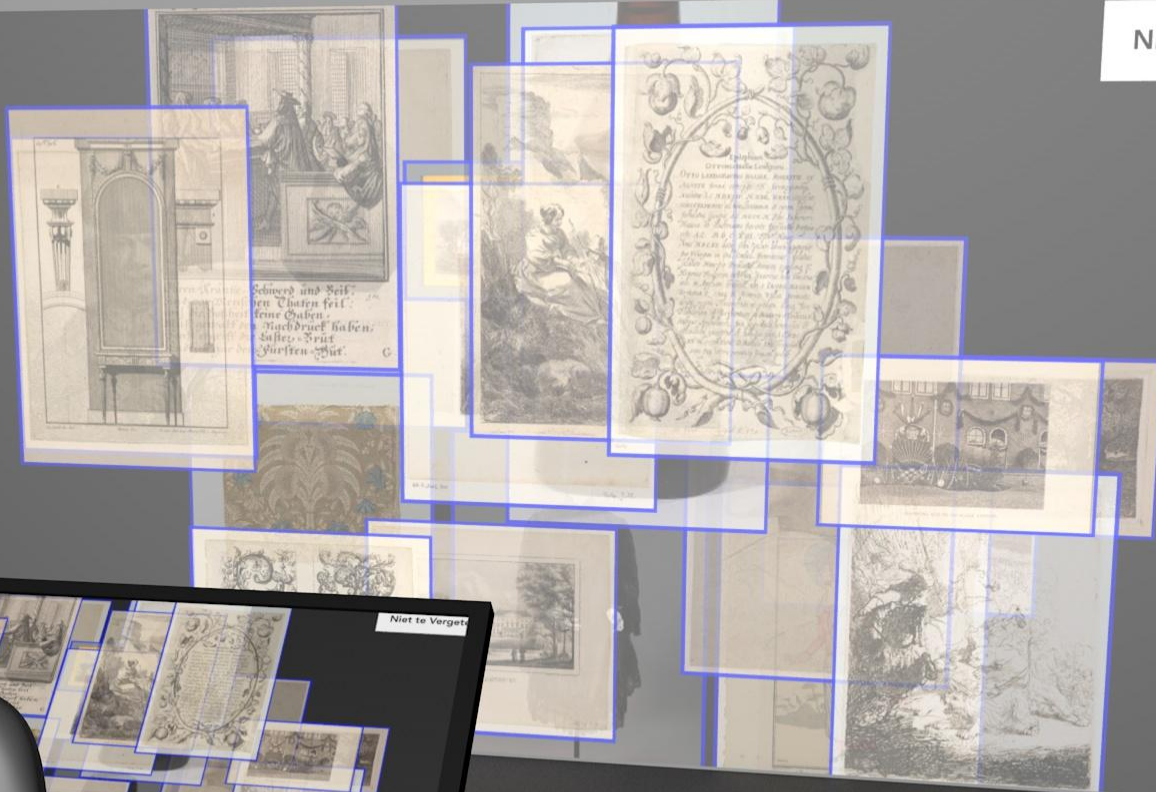

Interactive Installation

Shared exhibit

Limited time

Uniting multiple Museum Collections

Niet te Vergeten

Niet te Vergeten

You are a museum visitor

Artworks fading away

A large touch-screen invites active exploration

Large projection for passive lurkers

You breathe life into the works

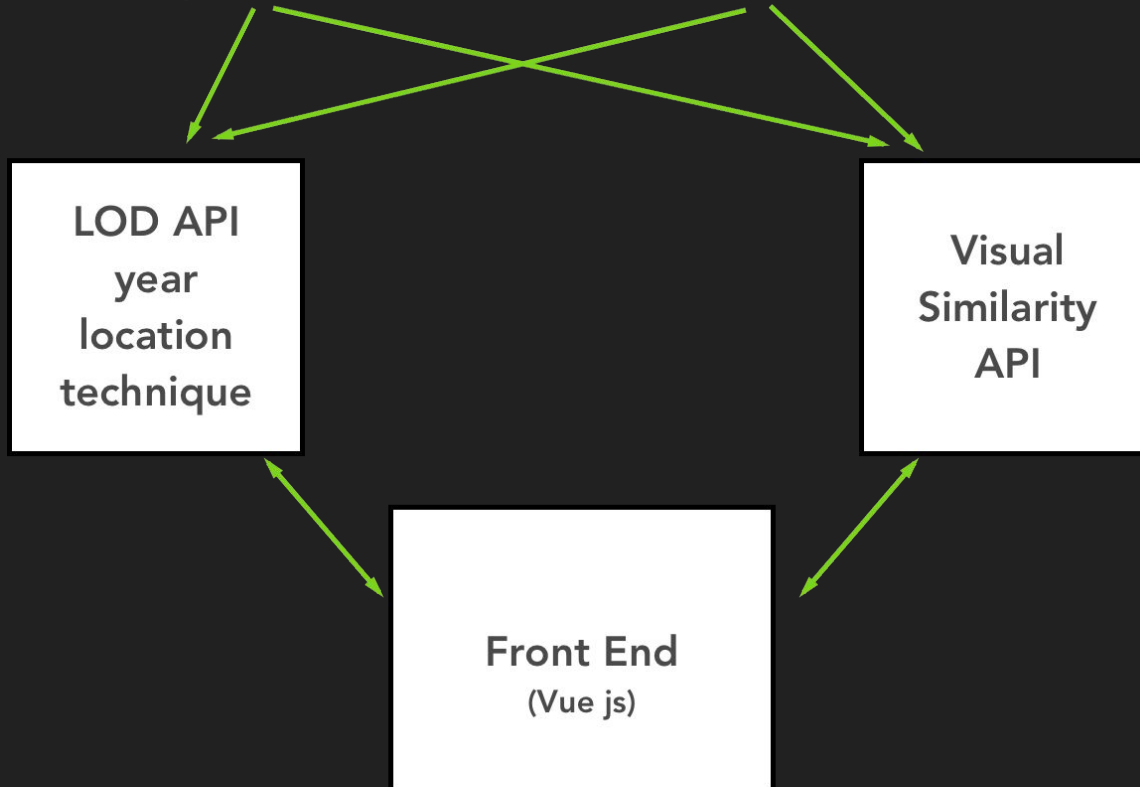

“Forgotten” items will never return

2 Dimensional Exploration

If you give life to an image, our VISPA API finds **visually similar** images

If you let them fade, our LOD API traverses the LOD graph to find images that are **semantically related**

Rijksmuseum Museum Volkenkunde

Twofold

Interactive digital
exhibition

Added bonus:

Visual quality to semantics reconciliation

As a service

Demo time 🤖
